Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 03 November 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Claim Rejections - 35 USC § 103

Claims 1-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over APA in view of either Neagu, Jones, or Holzhauser et al. See the previous office action for this rejection.

Response to Arguments

Applicant's arguments filed 11/3/05 have been fully considered but they are not persuasive. It is first noted that the dependent claims have not been separately argued so that their patentability stands or falls with the parent claims. Applicants are now referred to page 1 of their specification which has been designated by the examiner as applicants' prior art (APA) in the rejection. APA discloses the basic wood chipper with an infeed pan, and the problem caused by the pan not having a weight assist member i.e. heavy loads for the operator. With this problem in mind, there are two areas in which one skilled in the art would look to solve the problem. The first area would be the wood chipper subject matter area. The second area would be the weight assist area in general. The secondary references were found in the latter area. While these patents do not concern themselves with wood chippers, they are analogous because they solve operator weight load problems. Thus, the argument that they are not analogous art is not persuasive. Applicants then argue that even if the art was considered to be analogous, there is no reason to combine the references to meet the claimed subject matter. This argument too is not persuasive. Clearly APA presents the problems of weight loads for operators. The secondary references disclose solutions for weight load

problems and thus are combinable with APA to overcome the problems discussed in APA. Applicants naming of the elements as 'assist member' and 'assist mount' are merely other names for a spring and it's associated support and this is clearly shown in the secondary references.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
